PROFILE

full-stack developer with experience building and maintaining scalable web applications using React, TypeScript, Next.js, Django, and Supabase. Skilled in developing responsive user interfaces, integrating REST APIs, optimizing application performance, and implementing modern UI/UX practices. Experienced in collaborating with cross-functional teams to deliver business-critical solutions from development through deployment.

SKILLS

Frontend: HTML5, CSS, JavaScript, TypeScript, React.js, Next.js, Tailwind CSS

Backend: Node.js, Python, Django

Database: PostgreSQL, Supabase, NeonDB

Tools & DevOps: Git, GitHub, Docker, Postman, Vercel

EXPERIENCE

Web Developer | Geo Pro Global Solution Inc. — Easethetics

June 2025 – Present

- Developed and maintained responsive websites and web applications, improving load times and user experience.
- Worked closely with cross-functional teams including designers, product managers, and back-end developers to implement features and fix bugs.
- Ensured all web solutions adhered to SEO best practices, accessibility standards (WCAG), and cross-browser compatibility.
- Conducted regular code reviews and implemented version control using Git.

Full-Stack Developer Intern | Geo Pro Global Solution Inc.

Feb 2025 – Apr 2025

- Completed comprehensive training in full-stack development, covering both front-end and back-end technologies.
- Gained hands-on experience with modern tools and frameworks.
- Collaborated in agile teams to develop web applications, participating in code reviews, testing, and deployment processes.
- Applied best practices in responsive design.

PROJECTS

Easethetics — Web Developer

- Refactored and optimized the frontend codebase to improve scalability, maintainability, and performance; implemented semantic HTML, modern UI/UX principles, and responsive design across devices.
- Developed and enhanced system features based on business requirements, providing ongoing maintenance and bug fixes to ensure reliability.
- Integrated frontend applications with backend APIs for efficient data flow and consistent client-server communication.

Car Rental Admin Management System — Full-Stack Developer

- Architected and developed a full-stack rental management platform using React.js and Supabase for vehicle inventory, bookings, maintenance tracking, and customer records.
- Enhanced operational efficiency by implementing automated workflows that reduced repetitive administrative tasks.
- Integrated third-party APIs, including Google Forms, to automate customer inquiry management.

EDUCATION

Bachelor of Science in Information Technology

2021 – 2025

Mabalacat City College — Mabalacat City, Pampanga
